

LIFE FRIENDLY BAMBOO FABRIC "Eco-Friendly Regenerated Fabric from Organic Bamboo"

Hang Tag

Bamboolo® regenerated from Organic Bamboo is very Eco-friendly and Sustainable fabric had positive function for human life such as anti-microbial, anti-UV, Sweat absorption and Zero-static. Short growth period(2-3years) and easy cultivation of Bamboo are the most effective resource for sustainable human beings and easy to be bio-degradable after used. The Polyphenol and Terpene of Bamboo contains supply permanent anti-miceobial and deodorized funtion. Natural bamboo cell could be acted for Anti-UV, Zero-static electricity and skin-friendly comfortness. Bamboolo Fabric is the most suitable for skin contact garment and bedding good thanks to Eco & Skin-friendly and easy care.

Fiber View of Bamboolo®

Specification

- 100% Bamboolo
- Bamboolo / Cotton Mixed
- Bamboolo / Modal or Tencel Mixed

Characteristic

ENVIROMENTAL FRIENDLY & SUSTAINABLE

Continuous natural raw material / Recyclable regenerative process
Short growth period (2-4years) / Bio-degradable

NATURAL ANTI-MICROBIAL Permanent

Anti-Bacteria by Polyphenol and Terpene Permanent Deodorized

PROTECTION AGAINST ULTRAVIOLET LIGHT

Permanent Anti-UV by Bamboo cell

SWEAT ABSORPTION AND QUICK DRY

Easy sweat absorption by capillary of fiber morphology
Quick dry by Bamboo cell

ANTI-STATIC ELECTRICITY

Zero-static electricity by Bamboo cell

EASY CARE

Washable, Tumble dry, Dry-cleanable

Application

FASHION WEAR

Dress, Shirts, Blouse, Pants, Jacket, Blazer Knit wear

INNER WEAR

Underwear, Pajama, Night Gown, Home wear, Socks

BEDDING

Bed cover, Quilt cover, Pillow cover
